THE INFIRMARY.

Alexandria, Vs., Nov. 1. To the Board of Managers of the Alexandria Infirmary :

Ladies:-I bereby submit reports of work done in the Infirmary during my term of service, from September 1st to October 31st, 1900, as follows: Patients in the Infirmary September 1st, 12; admitted during term, 30; total 42. Results—Discharged as cured, 22; discharged as improved, 3; died 4; total discharged and died 29; remaining in under treatment Oct. 31st, 13; total patients at present time 42.

Of the four deaths that occurred three were in cases of house patients. and one in the case of a private surgi-cal patient of another physician.

Four important operations several minor ones were done during the term. Three of the four important operations were eminently success'ul, were all the minor ones.

In conclusion I would earnestly call your attention to the great need in the Infirmary of an elevator and wheeled stretcher. At present patients who have been operated upon have to be carried from the table to their beds. often upstairs and to the extreme end of the building. This carrying is a win the Portner Brewing Company, to a patient who has just undergone at operation and is still partially under to a patient who has just undergone an parional Correspondence Schools, of the influence of the areathetic.
